September 30, 2010 -- The Sierra Club has endorsed Sandy Galef for NY State Assembly, 90th Assembly district.

“Sandy Galef has a proven track record on creating and passing environmental legislation in the NY Assembly,” cited George Klein, Chair, Sierra Club Lower Hudson Group. “Sierra Club supports Assemblywoman Galef and looks forward to working with her in her next term.”

Sandy extended her thanks for the Sierra Club endorsement stating, “I am honored to receive an endorsement from the Sierra Club. Our environment impacts all quality of life aspects and I am committed to its preservation for the benefit of New York State residents”.

A strong environmental advocate, Sandy Galef has voted for a number of environmental laws, including:

- funding for the Environmental Protection Fund
- the Hudson Valley Community Preservation Act
- Auto global warming labels
- Restrictions on the use of hazardous creosote
- Creation of the Sea Level Rise Task Force.

In her continuing fight for our environment, Sandy also supports a moratorium on hydrofracking until citizens can be assured that gas drilling in New York will not negatively affect our drinking water.

The Sierra Club is America’s oldest, largest and most influential grassroots environmental organization, with more than 1.3 million members and supporters nationwide. The club works to protect the health of our environment and to preserve our remaining wild places through grassroots activism, public education, lobbying and litigation.
